

Terms and conditions

Welcome to the Baseline Vendor Portal. By continuing to browse or interact with this site, you agree to comply with and be bound by the following terms and conditions. These terms govern your access to and use of our website and its related services. If you do not agree with any part of these terms, please refrain from using our site.

Overview of Baseline's Vendor Portal

The Vendor Portal is a secure online platform by Baseline that simplifies vendor onboarding and prequalification. Vendors can submit company details, upload documents, and track approval status in one central location. The process includes two stages: submitting general information and signing a confidentiality agreement, which grants access to tender invitations and project documents; and prequalification, required before being engaged for work. Once reviewed and approved by the Procurement Team, vendors receive confirmation of progression or completion. The portal ensures vendor information is current and compliant, keeping businesses ready for opportunities with Baseline.
